

Award: Oliver Hamilton Memorial Endowed Electronics Award

Received by: Sahil Bista

Program: Electronic Engineering Technician (EEN)

Dear Donor,

I am writing to express my gratitude for the generosity you have shown towards me with the Oliver Hamilton Memorial Endowed Electronics Award. My name is Sahil Bista, and I am currently a student in the Electronic Engineering Technician program at Seneca Polytechnic. Studying at Seneca has been an incredible learning experience. It has allowed me to gain hands-on experience, be familiar with industry standard equipment, industry knowledge and helped me be ready for real world experiences. One of my favorite courses has been Hardware Software Integration (HSI), which focuses on both the electronics part as well as coding. Although challenging, HSI remains the most engaging subject and the one I have learned the most from.

Receiving this award will greatly support my academic journey. I feel incredibly honored to have been given this award and I feel appreciated for the hard work I have put towards my studies. This will reduce my financial burden significantly, allowing me to focus more on learning and growing my skills. I plan to pursue a degree in electronics engineering and work at leading companies, contributing to innovative technologies in communication and automation. This scholarship will help me get closer to achieving these goals, and I am truly grateful for your support.

Once again, thank you for your generosity and support. Your contribution not only assists students like me financially but also serves as a source of encouragement and motivation. I deeply appreciate the recognition and will strive to make the most of this opportunity.

Best regards,
Sahil Bista
